Early Talent Program – Analyst / Sr. Analyst

At Johnson Controls, we are passionate about making a positive impact on the lives of people all over the world. How do we do this? By working together on holistic solutions for smarter buildings and cities today and tomorrow. By protecting people and the environment. By giving back in the communities we live in. By solving today's challenges while constantly asking 'what's next'.

By joining Johnson Controls, you will be part of a team that plays an essential role in creating a safe, comfortable, and sustainable world. As globally diversified technology and multi-industrial leader, we serve a wide range of customers in more than 150 countries. Our 130,000 employees work to create intelligent buildings, efficient energy solutions, integrated infrastructure and next generation transportation systems that work seamlessly together to create smart cities and communities.

We are committed to helping our customers win and creating greater value for all our stakeholders in everything that we do.

Program Background

Our Early Talent Program helps develop freshers into future leaders of Johnson Controls. This is an intensive, exciting program that allows you to fast track your growth and learning, while having fun at work.

As an Early Talent in Finance Rotational Program, you will rotate to new roles after a certain period of time, to gain an overall understanding of accounting and financial responsibilities within Johnson Controls. This will also help you get the right exposure to the various business models within the company.

Early Talents are challenged to take on additional work outside of their day-to-day responsibilities to gain further knowledge and increase their network within the company. Additional training, development and mentorship opportunities are consistently presented to the campus hires with the expectation that all opportunities will be well utilized.

What you will do

Below are some of the works our finance associates are involved in and that you could do too!

Finance Transformation

- Provide support to regular project reporting assisting both the project controller and the Swiss finance leadership
