## 2025

**UNIVERSITY SCHOOL OF INFORMATION,  
COMMUNICATION AND TECHNOLOGY**

## ABOUT USICT

The University School of Information, Communication & Technology has been established to design and implement courses with a twin objective of generating effective professionals and to keep pace with the R & D activities of this fast emerging and changing field of Information & Communication Technology. The school aims at inculcating essential skills as demanded by the global software industry, through the interactive learning process. This includes team-building skills, audio-visual presentations and personality development programmes. These enhance analytic and communication skills, besides inculcating the virtues of self-study.

## MISSION AND VISION

The University's vision is to become an internationally recognized center for education and research and with our efforts we fuel our growth towards the mission to provide students with the best career prospects in the global market and to equip them to become effective professionals. The University aims to stimulate both the hearts and minds of scholars, empower them to contribute to the welfare of society at large; train them to adopt themselves to the changing needs of the economy; advocate them for cultural leadership to ensure peace, harmony and prosperity for the society.
